

MORUF BABATUNDE ADEBOLA

SOFTWARE ENGINEER / FULL-STACK DEVELOPER

✉ morufbadebola@gmail.com 📞 +27 64 205 7309 🔗 [linkedin.com/in/moruf-adebola](https://www.linkedin.com/in/moruf-adebola) 📁 [Portfolio](#) 📍 South Africa.

SUMMARY

Creative and detail-driven **Frontend Developer** with a strong foundation in **React, UI/UX** principles, and collaborative **product development**. Skilled at translating complex ideas into clean, **responsive, and engaging user interfaces**. Adept at integrating **APIs, authentication systems, and version control** to deliver secure, scalable solutions. Passionate about bridging **design and engineering** to build products that delight users and drive results.

EXPERIENCE

Full-Stack Developer Collaborative Projects

📅 Jan 2025 - Present 📍 Remote

Remote full-stack development projects

- Collaborated with **5+ cross-functional teams** to build **responsive interfaces**, improving user satisfaction and usability.
- Translated **20+ UI/UX designs** into functional **React components**, reducing frontend bugs by **30%**.
- Integrated frontend logic with **backend APIs** to deliver seamless **user experiences**
- Oversaw **50+ commits** and **20+** pull requests using **Git/GitHub**, streamlining **team collaboration** and reducing merge conflicts by **35%**.
- Provided project updates using **Slack and Notion**.

Frontend Development

Freelance Consultant

📅 Nov 2024 - May 2025 📍 Remote

Freelance frontend development consulting

- Guided **startups and small teams** on **UI/UX strategy, design audits, and web tech stacks**.
- Assisted **3+ clients** shape **MVPs** and streamline **user flows**, accelerating development cycles by **25%**.
- Directed **design-to-development** handoff for **5+ projects**, ensuring **100% mobile responsiveness** and reducing design related rework by **36%**.
- Delivered **3+ products** from concept to launch, meeting deadlines and achieving **75% client satisfaction ratings**.

Software Engineer

Collaborate Project

📅 Sep 2024 - Feb 2025 📍 Remote

Miva Open University project collaboration

- Created **15+ reusable React components**, cutting code duplication and speeding feature delivery by **70%**.
- Engineered backend features in **Python** to process student data, improving data accuracy and **reducing processing time** by **40%**.
- Engaged to **standups, conducted** code reviews, and **debugged issues, resolving 5+ bugs per sprint** and increasing sprint completion by **38%**.

EDUCATION

B.Sc. Software Engineering

Miva Open University

📅 May 2024 📍 Lagos, Nigeria

- Completed five full product development cycles with **Agile teams**, covering **design, implementation, and testing**.

SKILLS

Bootstrap	Figma	Git/GitHub	APIs	
HTML	Interactive Design	JavaScript	Express.js	
JIRA	MongoDB	Microsoft Teams	Mockups	
Next.js	Postman	Python	React	REST
Slack	Storyboarding	Tailwind	UX Research	
Vercel	Visual Studio Code			
Wireframing	Creative Problem Solving			
TypeScript	ChatGPT	Cloudinary		

INTERESTS

🚩 Design Research

Passionate about exploring user needs to shape better design decisions through **research and testing**.

KEY ACHIEVEMENTS

🏠 Tourvisto Travel

Set up the admin **backend** with **complete signup/login functionality** and **fully integrated Google OAuth** using the **Google Cloud Console**.

🏠 JOMT Journal

Designed and developed an **interactive journaling dashboard** that allows users to log daily habits, write personal reflections, and visualize their progress over time, aiming to support self-awareness, **consistency**, and **personal growth**.

COURSES

Certifications

Diploma in Full-stack Development

PluralCode Academy

📅 Aug 2023 📍 Lagos, Nigeria

- Trained in building dynamic web apps using **HTML, CSS, JavaScript, React, Node.js, and MongoDB**. Acquired practical experience working with **APIs, implementing authentication flows, and managing codebases with Git**.
